CLAMSHELLS

Machine Flat Head Screw

Standard screw for exterior boat projects. Flat head allows for a flush or countersunk finish. Designed for harsh environments.

Self Tapping Flat Head Screw

Flat head screws are used when you want a flush finish with the surface. Commonly used to install boat hardware.

Machine Pan Head Screw

Pan head screws have a flat top with smooth rounded sides that allow for lateral movement. Endless uses for this style screw.

Self Tapping Oval Square Drive

Square drive allows for greater fastener torque to be applied while an oval head allows the screw to be nearly flush with the surface.

Wing Nut

Wing nuts are designed to be hand tightened and are used in an array of places on a boat.

Self Tapping Pan Square Drive

Square head allows for greater torque without stripping the screw. Self tapping pan head screws have a flat top surface with rounded sides and are fully threaded.
